

## Here's Why You Want Packet8:

- You will significantly reduce your phone bills by getting unlimited residential local & long distance calling in the U.S. & Canada for one low, monthly price
- You can take your phone service with you—just plug the adapter into any high-speed Internet connection
- You can keep your current phone number or choose a phone number with a different area code
- You receive the same calling features traditional phone companies charge for at no extra cost

## Here's All You Need:

- 1 A high-speed Internet connection such as Cable or DSL
- 2 A Packet8 service plan—several to choose from, starting with \$19.99/month unlimited calling residential service
- 3 A Packet8 device—several options including a small Packet8 adapter that attaches to your existing telephone, a Uniden VoIP Phone with base station, and multiple cordless sets or a Packet8 VideoPhone

Visit Packet8 online at [www.packet8.net](http://www.packet8.net) or call 1-866-TRY-VOIP (1-866-879-8647)

## Packet8 Subscriber Testimonials

### Saves a Lot of Time and Hassle

*"I love Packet8! I've had the service for over a year now and could not get along without it! The feature I love the most is call forwarding! I forward my calls to my cell phone, so that no matter where I am I don't miss a call, and I only have to give out one number to friends and family! Sure saves a lot of time and hassle! Thank you Packet8!"*

Conrad N., Huntington Beach, California

### Extremely Pleased

*"Just a quick note to let you know that we have replaced our main telephone service with Packet8, and we've been using it for the last few months. My wife and I are EXTREMELY pleased with the quality and especially the savings that we are noticing in our monthly phone bills!!! Keep up the great work! You guys really do provide great service!"*

Randy B., Yakima, Washington

# Internet Phone Service

Get More & Pay Less Making Your Phone Calls with Packet8

# Packet8

For the Way You Live and Work

# Say Hello to Packet8, Say Goodbye to High Cost Monthly Phone Bills!

## What is Packet8?

Packet8 is an Internet phone service that transmits incoming and outgoing calls over the Internet, instead of the traditional public switched telephone network. It works just like your old phone service, only better — less expensive and includes more features — all for one low, monthly price.

**Our most popular calling plan, Freedom Unlimited, offers unlimited residential calling in the U.S. and Canada for just \$19.99 per month.**

## How Does Packet8 Work?

Packet8 uses a technology called VoIP (Voice over Internet Protocol) to route phone calls over your high-speed Internet, saving you money on local and long distance phone charges.

## How Do I Get Started with Packet8?

- 1 **Subscribe to a Packet8 service plan & choose a Packet8 device**
- 2 **Plug the Internet cable into your Packet8 device**
- 3 **Activate your Packet8 account and start making phone calls**

## Choose a Packet8 Device that Meets Your Needs

### Packet8 Broadband Phone Service Adapter

Designed and engineered for easy set-up and use, the Packet8 Broadband Phone Service Adapter has all the technology needed to make and receive your calls over the Internet using a regular home telephone.

### Uniden Whole House VoIP Phone System

Sleek and attractive, the Uniden Whole House VoIP Phone looks good at home or in the office. Designed specifically for Packet8 Internet phone service subscribers, the UIP1868P eliminates the need for a separate router and broadband phone adapter.

### Packet8 VideoPhone

The Packet8 VideoPhone delivers high-quality, full-motion video and clear, delay-free audio over any broadband (high-speed Cable or DSL) Internet connection.

### Packet8 Softtalk™

Packet8 Softtalk is a software application that runs on a PC which allows you to make voice and video phone calls without the need for a regular analog phone.
